

ITALY - USA GREEN ECONOMY DAY

When Italian excellences meet U.S. business opportunities

The Italian Ministry of Foreign Affairs in collaboration with the Gestore dei Servizi Energetici GSE - Corrente project and the Italian Trade Commission ICE - Italian clean technology in the USA presents the **ITALY - USA GREEN ECONOMY DAY: when Italian Excellences meet U.S. business opportunities.**

The initiative aims to promote the Italian renewable energy production chain and to provide information on the opportunities offered by the American cleantech market.

The event will be held on Thursday, September 27, 2012 from 10:00 to 16:30 at the ICE headquarters in New York.

The workshop will present the most important Italian companies and U.S. agencies working in field of renewable energy and it seeks to identify the main investment and collaboration opportunities with the United States.

The event will provide an ideal platform for numerous American institutions and organizations at Federal and State level and for major American inward investment agencies to explain how incentive systems for Renewable Energy differ from state to state.

During the workshop, the U.S. participating agencies will also be available to conduct bilateral meetings with their Italian counterparts.

For further information, please refer to the attached program.

Companies interested in participating in this initiative, are encouraged to submit their registration request to corrente@gse.it by **September 20, 2012**, indicating the name of the company and its participants.

Participants are responsible for their own travel and lodging expenses.
